Chiro 8

8 Section Chiropractic Table (Electric)

As complex as it looks, the 8 section couch provides professional chiropractors with the simplicity of use. Since the main emphasis of chiropractic is on manual and manipulative therapy for the treatment of joint dysfunctions, especially those of the spinal column, the 8 section couch serves as a force extension as well as force absorbent platform for chiropractors to perform various tentative tasks without the risks of collateral damage to the patients.

Classic Bracket main frame

Every aspect of our tables are designed to provide users with great comfort, ease of use, stability, reliability and accessibility of controls. The classic frame design have been tested vigorously over 20 years and its bracket type frame gives robust, long-lasting and non-flexing support.

Welders integral frame

- Reinforced main frame of top, middle and bottom supports are made from steel tube with an overall thickness of at least 2mm and 3mm.
- Close-Loop and butt joint welding are utilised in all construction of our top, middle and bottom support bracket.
- Structural integrity is well kept with symmetrical frames welding on both heads and sides. The twin pillars are rigid, stable and strong.

Product Features

The Chiro 8 Section Chiropractic Table with 4 sections of adjustable tension – drops at the head thorax and abdomen sections.

The Chiro 8 is fully electric and also has the ability to control the head via an electric motor, controlled by an easy to use joystick for precise adjustment.

The Chiro 8 has the following features:

- 4 Sections are equipped with adjustable tension-drops
- 2 Fixed arm rests for absolute patient comfort
- 3 Electric motor for height adjustment
- 8 Upholstered sections
- Twin oversized pillars for added stability
- 2 Individual levelling feet at head end
- 2 Hauling wheels at the rear – designed to be lifted and moved around by lifting just the armrests
- Maximum load capacity 225kgs / 496lbs

Controls

Fitted with a foot pedal for variable height adjustment, you can adjust the height from either sides of the table.

Fitted with a side bar for variable height adjustment, you can adjust the height from either sides of the table.
